The swift implementation of a PCS for Polish ports, spearheaded by my efforts, has been recognized and lauded by the community. My holistic approach to risk assessment and strategic planning has been instrumental in this success and could prove valuable to the IPCSA organization.

In 2019, I successfully brought Polish PCS into IPCSA, and in 2022, I was invited to join the Think Tank - Foresight initiative at IPCSA.

LA*

“ Since 2016, the Port of Los Angeles and Wabtec have embarked on an exciting journey to digitize the supply chain data. We have done so through several forms such as RFPs, grants and standard improvements.

Both Wabtec and the Port of Los Angeles have learned and continue to learn substantial lessons in the digital space of supply chain, hence it gives us the motivation to share our lessons with IPCSA and its esteemed members. We are also excited to learn as much from other members and acquire valuable best practices.

We look forward to a fruitful contribution to this upscale community.”
